Prices of special services and materials not listed will be given upon receipt of written information.

****NEMA INFORMATION**

On any single or three phase 208 volt circuits, specify whether a neutral is needed. Also, specify type plus NEMA NUMBER or whether a direct hook-up is needed. If a plug-in type is needed and you are not sure of the type of female receptacle, bring a female receptacle with your equipment.

The following current is available: 120 volts single and 208 volts, three phase, all 60 cycle A.C. All equipment must be properly tagged and wired with complete information as to type of current, voltage, amperage, phase, horse power, etc. Overloading and over-current are your responsibility.

Please note: For outside line telephone connections please call VERIZON at 1-800-941-9900 (Allow for a 30 day advance notice).
